

**Isabella County**

**APPLICATION FOR PERMIT  
TO CONNECT TO A COUNTY DRAIN**

Project Name: \_\_\_\_\_ Permit No. \_\_\_\_\_

**APPLICANT INFORMATION**

Contact Name: \_\_\_\_\_  
Agency Name: \_\_\_\_\_ Phone (Home): \_\_\_\_\_  
Address: \_\_\_\_\_ Phone (Work): \_\_\_\_\_  
City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

**CONTRACTOR INFORMATION**

Name: \_\_\_\_\_ Phone (Work): \_\_\_\_\_  
Agency Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

**ENGINEER INFORMATION**

Name: \_\_\_\_\_ Phone (Work): \_\_\_\_\_  
Agency Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

**LOCATION**

Drain Name: \_\_\_\_\_  
City/Township: \_\_\_\_\_ Section: \_\_\_\_, T\_\_ N, R\_\_ W\_\_

Is there an access road to the project? Yes \_\_\_ No \_\_\_

If yes, type of road: Private \_\_\_ Public \_\_\_ Gravel \_\_\_ Paved \_\_\_

Name of closest road intersections: \_\_\_\_\_

Is there a house/building or address visible from the road? (If so describe)

Describe the best and nearest visible landmark to the project site:

**PROJECT DESCRIPTION**

Provide a description of the project indicate if it is an open or closed drain and include the type and size of tile to be installed. (attach additional sheets if necessary) \_\_\_\_\_

## PROJECT CONDITIONS

### AND PERMIT TO CONNECT TO COUNTY DRAIN

1. Commencement of work set forth in the permit application constitutes acceptance of the permit as issued.
2. The crossing/connection/relocation shall be constructed at the location, elevation, and manner shown on the drawing attached hereto, which is, hereby, made a part of this agreement.
3. All connections to established county drains shall be done in a professional manner acceptable to the Isabella County Drain Commissioner. When connection is made to an enclosed storm sewer, the connection hole must be cored or cut with a concrete saw to the appropriate diameter. **(ANY METHOD SUCH AS JACKHAMMER, SLEDGEHAMMER, OR BREAKING THROUGH THE WALL IS UNACCEPTABLE.)** All connections must be properly sealed to prevent leakage and/or infiltration into the system.
4. It is desired that all connections be tapped into a manhole or catch basin. If this is not possible and connection must be made in the main line sewer, the following will apply: **(SEE ATTACHED DRAWING: TAP CONNECTION DETAILS FOR ENCLOSED COUNTY DRAINS).**
5. Open drain connection must be restored and protected against erosion and bank failure by use of seed, hydro seed, sod, rip rap, stone, concrete spillways, etc. As determined appropriate for the situation and approved by the Isabella County Drain Commissioner.
6. Any structures removed such as headwalls, wing walls, concrete slabs, rip rap, erosion protection, tilling and culverts – metal or concrete, must be replaced with new material and reconstructed to original condition or better.
10. Care shall be exercised such that the drain shall be maintained and left unobstructed during construction so as to prevent the backing up of water which would cause flooding of adjacent land.
11. The applicant agrees to assume all liability for any loss or damage sustained by any person or property as a result of the operations performed under this permit. Further, the applicant agrees to repair any damage to said drain the cause of which might be the result of the construction herein described.
12. The applicant agrees that within 30 days after completion of the work described herein, the applicant will deliver to the Drain Commissioner a certificate stating that the work has been performed in accordance with the terms thereof.
13. The applicant agrees to notify the Drain Commissioner three days prior to when the work described herein will commence so an inspector may be present, if necessary.

14. This permit does not relieve applicant from meeting any application requirement of law or of other public bodies or agencies, local, state or federal.

15. Permittee shall be responsible for and pay all costs for engineering and inspection services incurred by the Isabella County Drain Commissioner in the review of the Permit Application and inspection of work performed hereunder. Payment to be made within thirty (30) days of invoice.

16. Permittee is allowed to discharge clean unpolluted storm water only. Any product or material entering the established county drain through the authorized connection that is deemed unacceptable and considered pollution is the sole responsibility of the Permittee in regard to liability and expense for cleanup, fines, or penalties under local, state and federal law.

17. Permittee shall hold harmless and indemnify the Isabella County Drain Commissioner, the \_\_\_\_\_ Drainage District, and their employees, agents or contractors from any injury to person or property sustained as a result of the placement of the uses specified herein.

Further, this permit is subject to additional terms and conditions as follows:
